

Product Name: QuickTask Lite

Overview

QuickTask Lite is a lightweight task management application for small teams. The goal is to help users create tasks, assign them to team members, set due dates, and track task completion.

Target Users

- Team members
- Team leads

Functional Requirements

Task Creation

Users should be able to create a task with:

- title
- description
- due date
- priority

Task Assignment

Team leads should be able to assign tasks to team members.

Task Status

Users should be able to mark tasks as:

- To Do
- In Progress
- Done

Task List View

Users should be able to see a list of all tasks assigned to them.

Search and Filter

Users should be able to filter tasks by:

- status

- priority
- due date

Notifications

Users should receive a notification when:

- a task is assigned to them
- a due date is approaching

Non-Functional Requirements

- The application should load the dashboard within 2 seconds.
- The application should support desktop and mobile browsers.
- User data should be stored securely.

Future Enhancements

- Add recurring tasks
- Add AI-based task prioritization
